Leadership & Management in Education

(10 Credits, Level 9)

Module Aim	To module examines leadership of the educational organisation as a whole. Students will be provided with the necessary tools to create collaborative, shared decision-making, democratic group processes and interactions within their own educational context. It will provide practical knowledge and theory to move away from the traditional, authoritative organisational structure towards a collaborative and holistic approach which will enable the development of professional learning communities.
Module Learning Outcomes	<i>Upon successful completion of this module, a student will be able to:</i> <ul style="list-style-type: none">• Demonstrate insights gained, explore and critique educational leadership and management theory and practice.• Enable a deep critical understanding of the importance of Leadership and context at local, national & international level.• Critically review the changing role of leadership and the need for this role to evolve with societal change.• Interrogate and understand the theory and practice of Transformational & Instructional Leadership.• Critically engage with and recognise the importance of the development of professional learning communities to create structures to promote a collaborative culture, which will empower educators to work together to achieve their collective purpose of learning for all.
Mode of Assessment	100% Continuous Assessment
Delivery Methods	Online (Please See Timetable)
