Mentoring

(10 Credits, Level 9)

Module Aim	Experienced teachers, lecturers and educational leaders have a wealth of knowledge and skills. This module offers students opportunities to develop their abilities and dispositions to analyse and explain their academic and pedagogical thinking, so that they can share their expertise and support their colleagues' professional development, through skilful mentoring.
Module Learning Outcomes	<i>Upon successful completion of this module, a student will be able to:</i> <ul style="list-style-type: none">• Articulate a critical understanding of the general principles and practices of mentoring with reference to emerging literature.• Apply appropriate theoretical insights to the analysis and development of approaches to teaching and learning, informed by a systematic knowledge of mentoring at the forefront of current thinking.• Select from a range of relevant mentoring roles and strategies in order to skilfully support mentees to enhance their practice through self-evaluation and professional action.• Embody the competences required to lead improvement in, and nurture the professional learning of mentees.• Demonstrate an advanced level of competence in reflective self-evaluation and professional awareness and discernment.
Mode of Assessment	100% Continuous Assessment
Delivery Methods	Online & Blended (Please See Timetable)
