

Springboard+ and Human Capital Initiative Funded Courses 2024/25

Waterford / Carlow / Wexford / Wicklow

Springboard+ and HCI Conversion Courses

Springboard+ offers Free / 90% Funded Higher Education courses – typically 1 year or less - in areas where skills are in great demand in the Irish economy. All SETU courses are part-time and are delivered in flexible modes designed to maximise access including for people who are working.

- All courses are open to Employees and Returners* as well as to Jobseekers.
- Level 6 courses are free for all, Employees pay just 10% of the normal course fee for level 7 – 9 courses.
- Returners and Jobseekers may access courses free of charge.
- All courses are open to Jobseekers except the 2-year Computing Conversion courses.

HCI Conversion Courses [sometimes called “HCI Pillar 1” courses] are very similar except that:

- Applicants can also apply as recent graduates from full-time degrees.
- The majority of courses are nominally ‘full-time’ [albeit that they are fully open to people who are working full-time] and as such, may affect payments for some social welfare recipients.

All applications for Springboard+ and HCI Conversion Courses must be made online at: www.springboardcourses.ie

ELIGIBILITY FOR FUNDED PLACES

Springboard+ and HCI have very strict requirements around proof of eligibility. While a provisional offer of a place may be made – subject to academic eligibility – quite soon after your initial application you will subsequently be required to upload proofs of your residency and employment status as set out at www.springboardcourses.ie/eligibility. All candidates, without exception, will be required to upload the required documentation to the www.springboardcourses.ie site within the specified time windows in order to gain a funded place.

Eligibility for Funded Places: EU Applicants

To be considered eligible for a place on a Springboard+ or HCI Pillar 1 course, you will need to:

1. Have a valid PPS Number.
2. Be living full-time in the Republic of Ireland.
3. Be an EU, EEA, UK, or Swiss national (the “nationality requirement”).
4. Have been ordinarily resident in the EU/ EEA/ UK/ Switzerland for 3 full years out of previous 5 years (the “residency requirement”).
5. To be eligible to apply for a Springboard+ or HCI Pillar 1 funded course, all applications must be made under one of the following categories:
 - **Employed** - You are either working for an employer or you are self-employed.
 - **Unemployed** - You are not currently working, receiving a qualifying payment from the Department of Social Protection (unless formerly self-employed), and you are actively seeking employment.
 - **Returners** - You are a homemaker, on other caring duties, or economically

dependent on a partner/spouse for at least 9 of the last 12 months.

– Recent Graduates:

- Springboard+ (Skills Conversion): You are a graduate from a full-time NFQ Level 8 degree within the 12 months prior to the start of a Springboard+ course and you do not fit into one of the above categories.
- HCI Pillar 1: You are a graduate who completed their studies since January 2023 and you do not fit into one of the above categories.

Full information on eligibility is available at: springboardcourses.ie/eligibility

Eligibility for Funded Places: Non-EU Applicants

To be considered eligible for a place on a Springboard+ or HCI Pillar 1 course, you will need to:

1. Have a valid PPS Number.
2. Be living full-time in the Republic of Ireland.
3. Have a **Stamp 4, Stamp 5, or Stamp 6** on your Irish Residence Permit (IRP) card (the “visa/nationality requirement”).

This includes those who are resident here on a **Stamp 4** based on:

- having permission to remain in Ireland as a family member of an EU citizen; or
- having official Refugee/Subsidiary Protection status in Ireland / being here on the basis of refugee family reunification; or
- having been granted Humanitarian Leave to Remain in the State (prior to the Immigration Act 1999); or
- having permission to remain following the Minister's decision not to make a deportation order.

* ‘Returners’ are defined as people not in receipt of a payment from the Department of Social Protection that have been out of the work environment for a number of years - for example due to childcare or other caring commitments.

4. Have been ordinarily resident in the EU/ EEA/ UK/ Switzerland for 3 full years (i.e. 36 months) out of previous 5 years on a qualifying visa stamp (the “residency requirement”).

For clarity, non-EU applicants (with the exception of “Unemployed” status and in receipt of a qualifying DSP payment – see Note 1 below), must provide evidence limited to the following visas for 3 full years (i.e. 36 months) out of previous 5 years residency in the Republic of Ireland:

- Stamp 1 / Stamp 1G
- Stamp 3
- Stamp 4 / Stamp 4 EU FAM / Stamp 4D
- Stamp 5
- Stamp 6.

Please note, **Stamp 2 & Stamp 2A are not reckonable towards residency** and cannot be included in determining residency.

Residency in another qualifying jurisdiction outside the Republic of Ireland (and in the EU/ EEA/ UK/ Switzerland) for non-EU applicants is assessed on a case-by-case basis and proof of equivalent visas is required. **Holiday or educational visas are not acceptable.**

5. To be eligible to apply for a Springboard+ or HCI Pillar 1 funded course, all applications must be made under one of the following categories:

- **Employed** - You are either working for an employer or you are self-employed.
- **Unemployed** - You are not currently working, receiving a qualifying payment from the Department of Social Protection (unless formerly self-employed), and you are actively seeking employment.

- **Returners** - You are a homemaker, on other caring duties, or economically dependent on a partner/spouse for at least 9 of the last 12 months.

Full information on eligibility is available at: springboardcourses.ie/eligibility

Academic Eligibility

Academic entry requirements will vary by course and level. The entry requirements are set out on the course information pages:

- on the www.springboardcourses.ie website;
- at www.setu.ie/springboard

If in doubt contact SETU – please see the contacts for the various courses below and on the course information pages.

Recognition of Prior Learning

Recognition of Prior Learning (RPL) is a process by which prior learning is formally valued. It is a means by which prior learning is identified, assessed, and recognised by an educational institution. It means that you can get recognition for knowledge skills and competences you have achieved through formal, informal and non-formal learning.

SETU welcomes RPL applications for Springboard+ and HCI Conversion courses. Specific RPL processes for courses may vary. Please see specific information on the course information pages:

- on the www.springboardcourses.ie website;
- at www.setu.ie/springboard

If in doubt contact SETU – please see the contacts for the various courses below and on the course information pages.

Master of Science in Environmental Health and Safety Management

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow	€720 Springboard+	1 YEAR – PART-TIME 2 evenings per week 7.00 - 10.00pm (Indicative) includes some Saturdays throughout the year.	SEPTEMBER 2024	www.setu.ie/springboard

This programme aims to provide participants with specialist knowledge in both environmental management and health and safety management. It offers participants an opportunity to reflect on their professional practice and gain a theoretical and critical perspective of issues associated with environmental, health and safety. Providing a healthy and safe work place whilst protecting the environment is paramount for every business and industry. This MSc in Environmental Health and Safety Management will provide participants with practical management skills. It is essentially designed for busy professionals who wish to develop their knowledge base, network with like-minded individuals and further their career.

Certificate in Construction Project Management and BIM

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow	€250 Springboard+	1 YEAR – PART-TIME Term 1: 1 evening per week 7.00 - 10.00pm. Term 2: 2 evenings per week 7.00 - 10.00pm (Indicative)	SEPTEMBER 2024	www.setu.ie/springboard
Wicklow				
Wexford				

Our course in Building Information Modelling (BIM) management and construction project management provides a wealth of knowledge in these complimentary areas. The course can be an excellent addition to graduate learners' foundation of knowledge while embarking on a career in the built environment sector. Equally, it can provide those already working in this area with a formalised qualification in the theory and practice relation to both forms of management that will enhance career development opportunities.

Bachelor of Science (Honours) in Construction Management

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€510 Springboard+	BLENDED – PART-TIME 8 × 2-day teaching sessions over 1 year. On campus classes once per month on Thursday and Friday, from September to June.	SEPTEMBER 2024	www.setu.ie/springboard

The BSc (Hons) in Construction Management is a NFQ Level 8 qualification specifically aimed at those currently working in a Site Management role who aspire to progress to a Project Management position. It has been developed in collaboration with local and national construction companies, the South East Regional Skills Forum and the Construction Industry Federation. A full Level 8 qualification, it is delivered over 12 months via an innovative blended delivery approach combining classroom and online learning. Consisting of 3 semesters worth 20 credits each, there is a strong emphasis upon the development of advanced project management skills, innovation and problem solving, personal and professional

development, advanced information technology skills (including scheduling software and BIM) and applied research based on problem(s) identified in industry.

Bachelor of Science in Construction Site Management

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€510 Springboard+	BLENDED – PART-TIME 8 × 2 days teaching sessions over 1 year. On campus classes once per month on Thursday and Friday, from September to April.	SEPTEMBER 2024	www.setu.ie/springboard

The BSc in Construction Site Management has been developed in response to the industry's critical need for suitably qualified and experienced Site Managers. Participants typically include those who have progressed to a supervisory/management role from a trades background and/or with substantial site experience. A full Level 7 qualification, it is delivered over 12 months via an innovative blended delivery approach combining classroom and online learning. The course places a strong emphasis upon recognising and incorporating the learner's experiences into the learning process moving away from teaching to learning that embraces reflection, discussion and guided development. The curriculum focuses upon the development of both construction specific competencies and broader

personal and professional skills. Through this educational process, graduates of the course have grown in confidence and are now assured in their role as Construction Management professionals.

Master of Science in Supply Chain Management

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow Wicklow	€710 Springboard+	1 YEAR – PART-TIME 2 evenings per week 7.00-10.00pm (indicative) includes some Saturdays throughout the year	SEPTEMBER 2024	www.setu.ie/springboard

This Masters course offers a robust understanding of the concepts and best practices in Supply Chain Management for application in today's global economy. Supply chain management and sourcing have become a central focus for companies due to the rapid changes in demand for products and services, globalisation and technology. With operations becoming more complex, companies in the manufacturing, retail and technological sectors are searching for individuals with supply chain expertise. This course has been designed in collaboration with industry to address those needs. Potential employment opportunities in light of current skills shortages in industry in the area of Supply Chain Management, this Masters course will provide

participants seeking jobs in this sector with a competitive edge. It will also develop critical skills in areas such as process improvement, resource management, analytical and critical thinking, communication and sourcing and managing quality led sustainable supply chains from supplier to customer.

Scan QR code for the full list of modules.

Entry requirements

Entry requirements are a Level 8 degree with a minimum of Second Class Honours, Grade 2 in a related discipline or equivalent. SETU operates a Recognition of Prior Experiential Learning (RPL) scheme whereby applicants may be considered, based on relevant work and other experience, for exemptions from course modules and advanced entry. All applicants will be considered on a case-by-case basis. The Faculty of Lifelong Learning reserves the right to require applicants to attend for an interview to determine their suitability for the course.

Shorter courses in Supply Chain Management

STARTING SEPTEMBER 2024

- Certificate in Sustainable Supply Chains** Level 9, 10 Credits
 - Certificate in Lean Manufacturing and Six Sigma** Level 9, 5 Credits
- NOTE:** the Springboard+ subsidy only applies to the full Masters and does not apply pro-rata to the shorter courses.

Prospective students may also avail of a shorter course in this area.

Many of the modules that make up this programme can be studied as standalone minor awards as part of the Master of Science in Supply Chain Management.

The module delivery will run at the same time as the masters degree timetable for the specific courses below.

The entry requirements are usually the same for the degree.

For fee information, please refer to the SETU website.

Higher Diploma in Science in Digital Marketing with Analytics

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow	€350 Springboard+	1 YEAR – PART-TIME 3 evenings per week 7.00 - 10.00pm (indicative)	SEPTEMBER 2024	www.setu.ie/springboard

The lines are blurring between Marketing and IT. The European Commission has estimated that there are 900,000 unfilled digital jobs across Europe. Digital marketing is one of the few sectors where demand for graduates is exceeding supply. This course is ideally positioned to develop digitally focused and adaptable Marketing graduates, who will flourish in the emerging data driven, IT focused marketing function. Digital insights and analytics have come to the forefront of all Marketing strategy and are integral to day-today Marketing operations. This course provides an opportunity to those working in marketing from other discipline backgrounds to gain a qualification in marketing allowing them progress in their marketing career.

Higher Diploma in Business in Supply Chain Management

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow	€350 Springboard+	1 YEAR – PART-TIME 2 evenings per week 7.00-10.00pm with some Saturdays throughout the year (indicative)	SEPTEMBER 2024	www.setu.ie/springboard
Wicklow				
Wexford				

This one-year graduate diploma course has been designed for graduates of business and nonbusiness disciplines in order to equip them with the necessary knowledge and competencies in Supply Chain Management and business. Supply Chain Management is concerned with the management of the flow of goods and information through the value chain, from materials acquisition to final consumption. Graduates of this course will find employment opportunities in all manufacturing sectors including: electronics; pharmaceuticals and food processing - as buyers and material planners. Many opportunities also exist in logistics and distribution. This work involves using sophisticated computerised planning tools such as

MRP/ERP, interacting and negotiating with external suppliers and internal customers and contributing to project management as members of cross-functional teams.

Certificate in Culinary Skills

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	Fully Funded through Springboard+ - no fees apply	1 YEAR – PART-TIME Onsite two days per week Wednesday and Thursday	SEPTEMBER 2024	www.setu.ie/springboard

The programme is largely skills based. It will equip the learner to a standard that will give the necessary skills to begin a professional career in Culinary Arts and the ability to take up work in a professional kitchen environment. As an entry level programme, the skills acquired will be sufficient to enable the learner to embark on a culinary career.

The modules are designed to cover the skills required in professional practice to ensure that the learner can cope with the fast-paced environment of a commercial kitchen at a junior or trainee level. The learning is further enhanced with immersion in the work place through the work-based element of the program. Learners will also acquire key transferable skills in

HACCP and manual handling which is a desired requirement of the employer.
