March 2022

SETU Webinar

SETU's first webinar of 2022 was held on Friday 18th February, with at least three more planned between now and Establishment Day. The Presidents acknowledged the tremendous effort and work undertaken by staff to date and encouraged these efforts to continue as we near closer to Establishment Day. The programme structure was presented and results of the recent pulse survey were shared. A recording of the webinar can be found [here](#).

Governing Board Update

Minister Harris announced that Dr Patrick Prendergast will be the TU's first chairperson, and that he will be joined on the governing board by Jim Bergin and Ruth Beadle.

Having an inaugural governing board with such vast and invaluable experience will be of huge benefit to the technological university as it embarks on this new journey.

South East Technological University Named

South East Technological University, abbreviated to SETU, is the name of our new university.

When asked what the name of our new technological university should be, more than 2,500 respondents including staff, current students, prospective students and their parents concluded that our new name should reflect status and provide a unique sense of place.

For more information on the above or to share any ideas or concerns, please contact SETU Programme Management Office
