

Part-time Prospectus 2024/25

Waterford / Carlow / Wexford / Wicklow

Welcome

As President of South East Technological University, I am delighted to introduce you to our part-time and flexible programmes for the 2024/2025 academic year. There is increasing focus on the significance of university lifelong learning provision driven by demographics, student expectations post-pandemic, technological innovation and rapidly changing social and economic needs. This increased significance is reflected in government policy such as the recent decision to extend the SUSI grant to cover part-time programmes. This new support for part-time learners builds on funding already available under the Springboard+, the Human Capital Initiative and Skillnet to adult learners wishing to access or return to higher education.

Inclusive higher education for adult learners is at the heart of the technological university ideal. SETU's commitment to lifelong learning is stated clearly in its Strategic Plan for 2023-2028 Connecting for Impact, which acknowledges the significant expertise in lifelong learning in SETU and commits to supporting lifelong learning under its themes Our Learners and Our Engagement. There is considerable work underway in integrating and

enhancing lifelong learning programmes across SETU, as we work toward achieving those strategic goals. This work is apparent in SETU's support for Waterford's recent designation as a Learning City by UNESCO's Institute of Lifelong Learning.

The prospectus of part-time programmes for 2024/2025 illustrates SETU's continued commitment to high-quality flexible lifelong learning across a multitude of disciplines across our Carlow, Waterford, Wexford, Wicklow and Kilkenny campuses. From short-course micro-credentials to multi-year master's degree programmes, this prospectus presents a broad range of courses that are designed to meet the business, industry and social, community and cultural needs of the South East. Studying with us will enhance your employability and career development prospects as well as giving you an opportunity for personal growth.

My very best wishes to you as you embark on, or continue with, your lifelong learning journey.

Welcome to our SETU community.

Professor Veronica Campbell
SETU President

Fáilte

Mar Uachtarán ar Ollscoil Teicneolaíochta an Oirdheiscirt, tá ríméad orm tú a chur in aithne dár gcláir pháirtaimseartha agus dár gcláir sholúbtha don bhliain acadúil 2024/2025. Dirítear níos mó agus níos mó ar thábhacht an tsoláthair foghlama ar feadh an tsaoil tríd an ollscoil, rud atá á spreagadh ag déimeagrafaic, ionchais mac léinn tar éis na paindéime, nuálaíocht theicneolaíoch agus riachtanais shóisialta agus eacnamaíochta atá ag athrú go tapa. Léirítear an tábhacht mhéadaithe seo i mbeartas an rialtais amháil an cinneadh a rinneadh le déanaí an deontas SUSI a leathnú chun cláir pháirtaimseartha a chur san áireamh. Tógann an tacaíocht nua seo d'fhoghlaimseartha páirtaimseartha ar mhaoiniú atá ar fáil cheana féin faoin Lingchlár+, faoin Tionscnamh Caipitil Dhaonna agus faoi Skillnet d'fhoghlaimseartha fásta ar mian leo rochtain a fháil ar an ardoideachas nó filleadh air.

Tá an t-ardoideachas cuimsitheach d'fhoghlaimseartha fásta i gcroílár idéal na hollscoile teicneolaíochta. Luaitear tiomantas SETU d'fhoghlaim ar feadh an tsaoil go soiléir ina Phlean Straitéiseach do 2023-2028, Ag Nascadh ar Mhaithe le Tionchar, ina n-aithnítear an saineolas suntasach i bhfoghlaim ar feadh an tsaoil in SETU agus ina ngealltar tacú le foghlaim ar feadh an tsaoil faoina théamaí Ár bhFoghlaimseartha agus Ár Rannpháirtíocht. Tá obair mhór ar siúl chun cláir foghlama ar feadh an tsaoil

a chomhtháthú agus a fheabhsú ar fud SETU, agus sinne ag obair chun na spriocanna straitéiseacha sin a bhaint amach. Tá an obair seo le feiceáil sa tacaíocht a thugann SETU d'ainmniúchán Phort Láirge mar Chathair Foghlama a rinne Institiúid Foghlama ar Feadh an tSaoil EOECA le déanaí.

Léiríonn réamheolaire na gclár páirtaimseartha do 2024/2025 tiomantas leanúnach SETU d'fhoghlaim sholúbtha ar feadh an tsaoil ar ardchaighdeán ar fud an iliomad disciplíní ar fud ár gcampas i gCeatharlach, i bPort Láirge, i Loch Garman, i gCill Mhantáin agus i gCill Chainnigh. Idir mhicreachtáilíochtaí gearrchúrsa agus chlár mháistreacht ilbhliana, cuireann an réamheolaire seo réimse leathan cúrsaí i láthair atá deartha chun freastal ar riachtanais ghnó, tionscail agus shóisialta, phobail agus chultúrtha an Oirdheiscirt. Cuirfidh staidéar linn le d'infhostaitheacht agus d'ionchais forbairt gairmréime. Lena chois sin tugann sé deis duit tabhairt faoi fhás pearsanta.

Guím gach rath ort agus tú ag tabhairt faoi d'aistear foghlama ar feadh an tsaoil nó ag leanúint leis.

Fáilte chuig ár bpobal SETU.

An tOllamh Veronica Campbell
Uachtarán SETU

Our vision

South East Technological University will be a leading global Technological University with transformative impact on our community, the south east of Ireland and beyond.

Our mission

Through inclusive education and high-quality research, South East Technological University drives innovation, empowers communities, and delivers transformative impact for the south east of Ireland.

SETU is an international, entrepreneurial and connected multi-campus Technological University that will drive sustainable economic, environmental, cultural and social development in the south east of Ireland.

SETU offers a student-centred education and is committed to lifelong learning, access, equality and inclusion, and to the provision of a comprehensive educational offering.

Our curriculum is responsive to social, cultural and enterprise needs and is research-led. Our research will have impact for the region, nationally and internationally. SETU will work in support of student and staff success and foster a collegial environment for all.

SETU Lifelong Learning Contacts

Senior Management Team

Dr Helen Murphy
Head of School of Education and Lifelong Learning
helen.murphy@setu.ie

Helen's role involves working with colleagues in Education in the field of adult and community education, further education and higher education. She works with colleagues across SETU on programmes for lifelong learning, continued professional development for educators and is involved in University wide projects relating to the recognition of prior learning, micro-credentials and teacher education. Helen is based on the Waterford campus and collaborates with colleagues in Carlow and Wexford.

Dr Tony Murphy
Head of Lifelong Learning
tony.j.murphy@setu.ie

Tony oversees lifelong learning across SETU, working with colleagues in Waterford, Carlow, Wexford and Wicklow to ensure the development and delivery of quality programmes to meet the needs of lifelong learners in the South East.

Tony is working with stakeholders across SETU, and across the region, on SETU's future strategy and model for high-quality, integrated university lifelong learning provision for the South East.

Director of Lifelong Learning

Rosemary Flynn
Director of Lifelong Learning
Kilkenny Road, Carlow
rosemary.flynn@setu.ie

Rosemary's role includes the management of the Lifelong Learning operation on the Carlow Campus offering a diverse range of courses facilitating adults from all backgrounds to return to education and upskill or reskill. She has dedicated much of her career to the support of students and has been instrumental in leading transformative programmes to under-represented groups and in providing a variety of support measures for all students.

Head of Extended Campus

Anne Meaney
Head of Extended Campus
Kilkenny Road, Carlow
anne.mmeaney@setu.ie

Anne works with partner organisations in the design, development, validation and delivery of industry led programmes. Recognition of prior learning forms a large part of these collaborations.

She is based in the Faculty of Engineering on the Carlow campus and works with colleagues across all faculties of the University in the development of programmes.

Employer Contacts

Eoin O'Brien
Lifelong Learning Manager
Kilkenny Road, Carlow
eoin.obrien@setu.ie

Neil Quinlan
Lifelong Learning Manager
Cork Road, Waterford
neil.quinlan@setu.ie

The key SETU contacts for employee upskilling and reskilling courses are Eoin O'Brien and Neil Quinlan. Eoin and Neil work closely with a network across the region to meet the upskilling and re-skilling needs including:

- Employers both public and private, industry bodies and clusters and Chambers;
 - The South East Regional Skills Forum – Manager, Edmond Connolly;
 - Courses funding agencies such as Skillnets, Springboard and LEOs;
- and many others including working with our partners in the region's Education & Training Boards.

Student Stories

Grace Doyle

Higher Diploma in Computer Science

I studied the online part time HDip in Computer Science conversion course. I've always had an interest in learning

to code and learning more about this industry. I was a secondary Math and PE Teacher before working for a tech company on a career break. I heard this was a very in-depth course so I took the plunge!

I didn't know I was going to switch careers fully, but it turns out I did. I am now working as a Data Engineer Associate with Sun Life International in Waterford. I am learning loads and really enjoying the experience so far! I'm looking forward to seeing where this path takes me. I'm glad I took the leap.

The workload was tough at times, as I was trying to juggle between work, training at a high level and study, but it is definitely manageable with some good planning.

There was great access to support from the lectures and also from other peers on the course. There was an idea to set up study groups at the start, which worked well when it came to assignments and bouncing ideas off classmates, just like an in-person classroom. You can also see who else is online and what they are working on, or you can simply drop your lecturer a slack message or arrange a call. They were always willing to help out.

If you are thinking about the course you won't regret doing it. It could be the start of a new career path, or at least giving yourself more options, or upskilling for the job that you are in.

Cheryl Barry

Postgraduate Diploma in Digital Marketing Practice

I recently completed my PGDip in Digital Marketing Practice with Springboard, followed by a master's degree in the same academic field. My primary

degree is in visual communications and I suppose I was eager to broaden my horizons and explore my artistic side within the realms of marketing.

I was drawn to the marketing landscape which seemed to have lots of career opportunities. For me, it was really about upskilling to make myself more of a hireable and desirable prospect in the jobs market. Enrolling on the post-grad programme funded by Springboard was an absolute game changer for me. It definitely opened up a few doors which would not have been possible had I not enrolled.

The course provided me with a comprehensive understanding of marketing fundamentals such as analytics, digital marketing strategies, customer persona development, skills that have become indispensable in my professional journey so far. This knowledge not only empowered me to navigate creative challenges but also inspired me to start my own business, Simply Marketing.

I would highly recommend this course to anyone contemplating a career in digital marketing. Beyond the rich curriculum, the flexibility of the course schedule was accommodating around my other commitments. Moreover, the support from the lecturers played a pivotal role in my academic success. Today, armed with the expertise gained from the course, I can confidently navigate the dynamic landscape of digital marketing.

So if you're considering a career in digital marketing, take the leap, enrol, it's a decision you won't regret.

James Graham

Higher Diploma in Management

I completed the between August 2022-May 2023. The course gave me an in depth understanding of a modern business

environment and the skills and knowledge to progress in my career.

I decided that the HDip in Management was the right course for me following my Certificate in Effective Leadership and Change Management. It was delivered completely online but SETU made it easy to get the information I needed despite not being face-to-face. The workload was manageable but through developing good study and time management habits, I was still able to keep up my training and family commitments.

This course gave me the confidence in the recruitment process and allowed me to present the value I bring to the organisation. I started a new role after completing the course working as a Decision Intelligence Specialist in a SaaS organisation that works globally across banking, insurance and BPOs helping service operations to take greater control, improve operational performance, and support their teams effectively. The course helped me turn a career vision into a reality!

SETU Lifelong Learning has been transformative for me - I highly recommend it to anyone looking to further their education and career.

Keith Worley

Postgraduate Diploma in Teaching in Further Education

Prior to completing the course, I worked in the field of social care and provided staff with therapeutic crisis

intervention training. The Post Graduate Diploma offered me a new career path. Returning to education as a mature student one full day a week; allowed me to juggle family life, work life and education.

It highlighted and developed my transferable skill set to utilise in my teaching practice. The course, as a whole, offered me the opportunity to learn from my fellow students and the lecturers. The modules covered all the practices required in the profession.

The course offered me the opportunity to evaluate my practice and the practice of teaching across the various positions in the further education sector. Those delivering and running the course were aware of the demands external to the classroom and took these into account when dealing with the group.

The course was not without stress (assignments, due dates, portfolios and group work) but it was a collaborative experience and one that I thoroughly enjoyed.

Professionally, the course allowed me to interpersonally communicate and form working relationships with many teachers/tutors with vast experience, which enhanced my teaching practice. The difference in my personal life is night and day.

Student Stories

Fiona Horan

Bachelor of Arts (Hons) in Early Childhood Education and Care

I found the (BA Hons) Early Childhood Education and Care degree tough but so enjoyable - I had finished

school 20 years earlier but did a level 5 course two-years prior to my degree. If you study something that you're interested in and passionate about, it makes it easier. Also, the support from my family was essential. If you have both - support from family and a passion for what you're studying - you're halfway there!

When I got the opportunity to study for a Masters, I was delighted. I knew from my undergraduate degree that it would be a strong course and there would be support from Lifelong Learning if I needed it.

I would recommend returning to part-time education to anyone who feels they missed out earlier in life or they haven't achieved their potential, or simply wants a better life for their family. Do it now, this is as good a time as any!

Recognition of Prior Learning (RPL)

Recognition of Prior Learning (RPL) is a process by which prior learning is formally valued. It is a means by which prior learning is identified, assessed, and recognised by an educational institution. It means that you can get recognition for knowledge skills and competences you have achieved through formal, informal and non-formal learning.

Learning can come from life, school, paid or unpaid work, short courses or learning at college. Through RPL, learners can show evidence of learning that has taken place prior to enrolment so that it is recognised and given value. A fundamental principle of RPL is that a learner should not be asked to relearn something they already know. With RPL, prior learning, once identified and valued, can count towards entry/admission, advanced entry or exemptions from a module/modules on a course.

Benefits of RPL

- RPL is a pathway to accessing and participating in Higher Education programmes
- RPL enables an efficient and cost-effective avenue to upskill and reskill
- RPL is a mechanism where workplace learning is valued.

Types of RPL

If you are thinking of studying at the University and you have previous learning or qualifications at an appropriate level then you may be able to:

- gain admission without the standard entry requirements

- gain advanced entry (admission to a year other than year 1 of a course)
- get exemptions from studying certain modules.

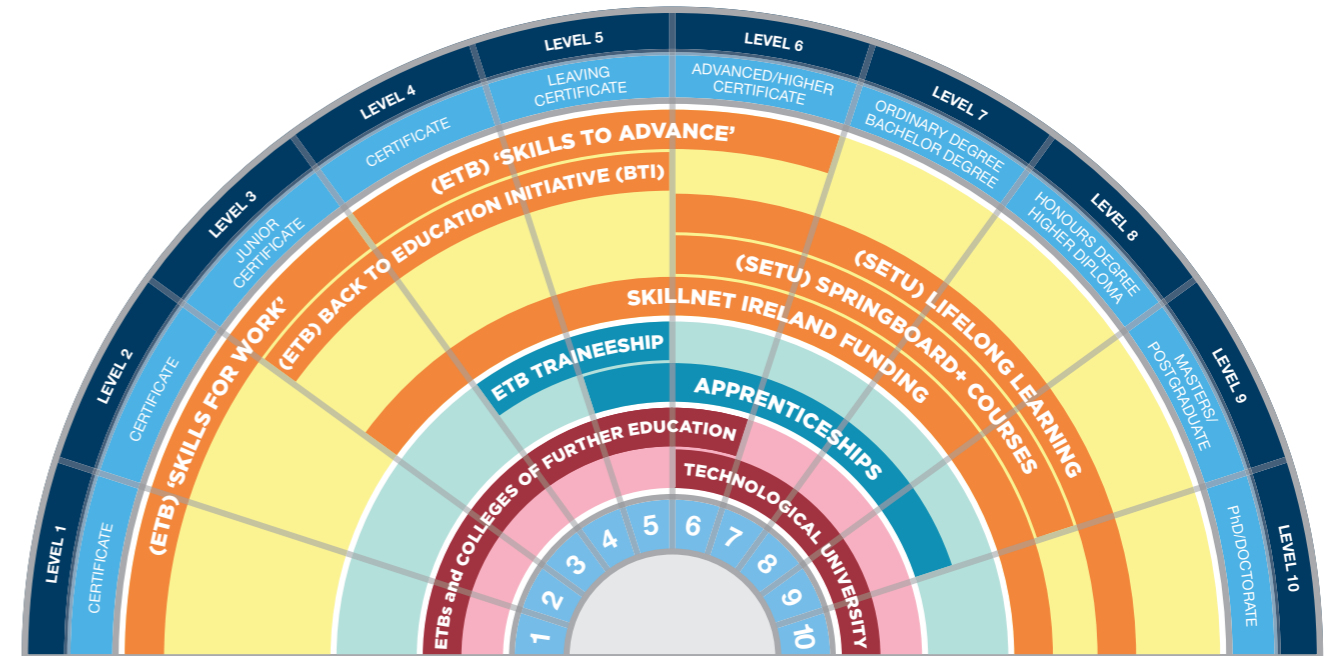

RPL for Enterprise at SETU

Future proof your team by harnessing the potential of Recognition of Prior Learning. RPL for Enterprise looks at ways to recognise skills, knowledge and competences learned on the job. RPL is a valuable tool for employers in boosting productivity, attracting talent and supporting retention. Supporting individuals or cohorts to engage in the RPL process signals an investment in the workforce and a fast track to upskilling and reskilling in high need areas.

For more information about RPL@SETU go to www.setu.ie/study/recognition-of-prior-learning

Skills to Advance: training programmes tailored to employer skills needs; delivered by ETBs
Back to Education Initiative: training programmes for persons without Leaving Cert.; delivered by ETBs

SETU's Commitment to Equality, Diversity & Inclusion

South East Technological University (SETU) engages with numerous initiatives designed to advance equality, diversity and inclusion and to provide an inclusive and diverse learning environment in which all our students are supported in reaching their full potential. The university has a comprehensive EDI Policy in place and is due to publish its first university wide EDI Strategic Plan in 2024. The university has a dedicated cross-campus EDI Office, the work of which is guided by our Vice President for Equality Diversity & Inclusion.

Key areas of EDI work include inclusive gender equality, along with work on race equality and tackling sexual harassment and violence. SETU has published a comprehensive Gender Equality Action Plan and in 2023 were named as European Inclusive Gender Equality Champions by the European Commission's Research & Innovation Office. SETU is also working to tackle race inequality across the university in recognition of the increasing diversity of the ethnic backgrounds of many of our students and staff. A Race Equality Forum is in place and is working on developing a Race Equality Action Plan. Following the publication of the Framework for Consent in Higher Education Institutions in 2019, SETU is offering extensive training to both staff and students on Active Consent, Bystander Intervention, Tackling Sexual Harassment and Violence and Coercive Control. SETU's Ending Sexual Violence, Prevention and Support (ESP) Committee is focused on making SETU a safe, respectful, and supportive place for all members of our university community, and SETU has also recently appointed a Tackling Sexual Violence and Harassment Prevention and Response Manager.

SETU has also led various initiatives designed to foster LGBTQ+ inclusion across our campuses and has recently adopted a comprehensive Gender Identity & Expression policy developed in response to the need to recognise and respect

gender diversity within our student and staff body and to form a policy framework to ensure good practice in its approach to gender diversity. It followed extensive consultation with a cross-institutional selection of participants including the University's Student Union (SU) and externally with Transgender Equality Network Ireland (TENI) and ShoutOut.

SETU holds an Athena Swan Ireland Bronze Legacy Award in recognition of its work progressing gender equality in academia and promoting diversity and inclusion in higher education. The Athena SWAN Charter is a flagship accreditation scheme which recognises action to address gender equality within our higher education institutions. Three academic departments on our Carlow Campus also hold awards; the Department of Computing, the Department of Humanities and the Faculty of Engineering. These were awarded following a comprehensive self-assessment process, involving extensive consultation with undergraduate and postgraduate students prior to application at departmental level, was hugely beneficial and enlightening for all participants.

Finally, SETU is now proud to be a University of Sanctuary, following an application made to Universities of Sanctuary Ireland in 2024. This acknowledges the good practice of universities welcoming sanctuary seekers into their communities and fostering a culture of welcome and inclusion for all. A University of Sanctuary should be a place where anyone can feel safe, welcome, and able to pursue their right to education. SETU also offers Sanctuary Scholarships to eligible applicants in support of this initiative.

For further information on any of the above please see **SETU | Equality Diversity and Inclusion** or contact:

Master of Science/Postgraduate Diploma in Organic and Biological Agriculture

Master of Science in Organic and Biological Horticulture

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€7,920 Part-funding may be available from National Organic Skillnet	2 YEARS – BLENDED No more than 3 days onsite at SETU per module; 12 days per academic year.	SEPTEMBER 2024	www.pac.ie

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€7,920 Part-funding may be available from National Organic Skillnet	2 YEARS – PART-TIME	SEPTEMBER 2024	www.pac.ie

This course is designed to address specific practical and scientific skills gaps for people already working within ag / land sciences. It aims to produce graduates with the necessary organic and biological agriculture skillset to advise and engage in productive and profitable primary production and/or contribute to research and development in the sector.

- An ability to put core principles of biological agriculture into practice in the field.
- The capacity to proactively contribute to and design supportive policy in agroforestry and landscape biodiversity; climate adaptation and resilience; sustainable crop and livestock production; and enhanced soil and water management.

Modules

- Soil Health and Water Management
- Crop Management in Organic and Biological Agriculture
- Livestock Management in Organic and Biological Agriculture
- Food, Health and Nutrition
- Agroforestry and Landscape Biodiversity
- Project Management and Marketing
- Research Methods and Dissertation

Scan QR code for the full list of modules.

These programmes place a strong emphasis on the professional development of the graduate to enable them broaden their own career options.

Prospective students may also wish to consider a shorter course in this area.

All of the Certificates below are 'Minor Awards' of the Masters in Organic and Biological Agriculture and students can sign-up for them independently.

The course aims to develop graduates who have:

- An advanced knowledge of organic and biological agricultural practices and principles.

The MSc/PG Diploma in Organic and Biological Horticulture programmes are two year part-time taught postgraduate programmes that were developed to address the need for innovation and advanced knowledge and research capabilities in the organic horticulture sector.

which are crucial for driving change and addressing the national and global challenges of the horticulture industry.

Course Leader
Yvonne Grace

The aims of this module are to:

- Develop the students' knowledge and understanding of the different styles of architecture prevalent in Ireland in both a rural and urban context.
- Develop awareness in students of the processes involved in identifying the vintage of a building through

analysis of its fabric and history.

- Introduce students to the evolution of vernacular building traditions.
- Make students aware of the political and social influences that helped shape our architectural heritage.

Entry requirements

Master in Arts in Applied Spirituality

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Milltown Park, Dublin	€6,400	1 YEAR – PART-TIME One week early September; 3-day blocks (Thurs – Sat) per month October to May, with two 3-day blocks in October	SEPTEMBER 2024	www.pac.ie

The MA in Applied Spirituality is a 18 month, three semester, Level 9 taught programme. It brings the resources of spirituality to bear on issues about the meaning of life that come up in work settings, therapeutic settings, family settings, relationships or in the context of social issues regarding just and sustainable living. It aims to meet the needs of those with an interest in pursuing advanced study in the area of contemporary spirituality. The programme, which will take place at Milltown Park, Dublin draws on a substantial body of literature by writers, scholars and practitioners, as well as mystics, drawn largely from Christian traditions.

Master of Arts in Social Justice and Public Policy

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€6,500	2 YEAR – PART-TIME Delivered over 17 evenings and all-day sessions and 2-block weeks in a Dublin city centre location.	SEPTEMBER 2024	www.pac.ie

The MA in Social Justice and Public Policy is a two year part-time programme which gives students a unique opportunity to develop a theoretical framework and the deep capacity for analysis, understanding, knowledge, skills and practices needed to engage meaningfully in social change towards a more just and inclusive society focusing particularly on influencing public policy. Social Justice Ireland is a key partner in this programme.

This MA is particularly suitable for students seeking to promote a fairer society, including people from business, community, voluntary, social inclusion, environmental organisations, trade unions, public service and religious sectors. Many applicants

will be working in a voluntary or paid capacity with an organisation, group or office involved with social justice or addressing issues affected by public policy.

Wicklow				
Wexford				

This programme provides learners with a range of critical and analytical tools to enable them to manage and lead services that develop the potential of children, youth and families and envision new possibilities for better service provision in the sector. The course is designed to provide the knowledge, skills and competencies required by the sector and to provide future leaders of Child, Youth and Family services in Ireland and abroad. The course aims to educate learners to high levels of contemporary and comparative theoretical awareness in fields central to services provision and to create an atmosphere of rigorous academic enquiry and writing. Learners will develop a deep and integrated knowledge of contemporary child, youth and family theory and

practice, and the sector within which child, youth and family services operate.

Certificate in Family Support (Theory and Practice)

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow	€1,500	1 YEAR – PART-TIME Six Saturdays throughout the year (indicative)	JANUARY 2025	www.setu.ie/parttime
Wicklow				
Wexford				

Family Support is a framework that encompasses a wide range of activities that aim to strengthen positive social networks within the community through community-based courses and services. Early intervention in the promotion of health, well-being and the rights of all children and their families is a key focus, with particular emphasis on serving the vulnerable and at-risk. Participants will analyse the theories of Family Support and develop the ability to critically examine its evolution as a practice, also examining the impact of family challenges on the child and wider family. Please note, applicants must be working in the sector as work based learning is a key feature of this programme.

Wicklow				
Wexford				

This module explores current contrasting and emerging issues in childhood and youth theory, policy and practice. The roles, responsibilities and experiences that children and young people may explore outside of the family are examined. The lives of children and young people who experience adversity and resilience are studied. The future of childhood as a consequence of globalisation is critiqued. Finally, the active agency of children and young people as participants in their own lives and futures is discussed. The theme of empowering and enabling children and young people to become active citizens runs through the module.

Social care professionals provide vital support, advocacy and care to some of the most vulnerable and marginalised groups in society including people with disabilities, children and families at risk, asylum seekers, people with addiction, mental health issues and the elderly. The course provides graduates with the skills and expertise to work in the social care profession and work across this diverse sector, typically in fields such as residential care, disability and community based services. Our strong links to practice allow us to facilitate students in professional practice placements throughout the course, further developing their professional skills and knowledge for future employment in areas of social care, social policy and social justice.

This is a one year add on for those who already hold an NFQ Level 7 in Social Studies or Social Care.
PLEASE NOTE: This programme is not approved by CORU.

Master of Science in Construction Project Management

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€6,000	2 YEARS – PART-TIME 8 × 2 day sessions (Thursday and Friday)	SEPTEMBER 2024	www.pac.ie

This two-year part-time programme incorporates 'blended learning', where technology and traditional modes of delivery are effectively merged. While it is open to NQF Level 8 degree holders from construction related disciplines (e.g. Civil Engineering, Quantity Surveying, Architecture, Architectural Technology, Construction Management), it is also open to those with either NQF Level 7 qualifications or Professional Body qualifications in addition to relevant work experience. Completing this programme and gaining the MSc qualification should enable the successful participants to perform at a higher level in the Irish and International Construction Industry and generally enhance their overall career prospects.

Programme Aims

Develop a deep understanding of and competence in the key project management processes in a construction environment; Develop the participants' research knowledge and capabilities, thus enabling their application to the management of projects, innovation and continuous improvement in the construction industry.

Bachelor of Engineering in Fire Engineering

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€3,000	1 YEAR – PART-TIME Blended with 50% of programme delivered face to face on campus and 50% online.	SEPTEMBER 2024	www.setu.ie/parttime

This industry-focused programme is responding to the developing skills shortage in Fire Engineering in the construction sector. There is now growing awareness of fire safety design and a growing need to have construction professionals trained in this area.

The introduction of the Building Control Amendment Regulations (BCAR) has had a very significant effect on the way building design and construction is managed and implemented. Consequently, employers are increasingly looking for employees with specific sets of fire safety engineering skills for all construction phases including specification, design, installation, certification, inspection, management

& maintenance of passive and active fire protection systems in buildings.

The course has been designed to allow construction professionals from architectural and consulting engineering practices, construction contractors, M&E contractors, building surveyors, building product suppliers, property risk assessment and insurance personnel, Fire Service and Fire Industry personnel to upskill and gain a qualification in fire engineering.

Master of Business in Investment Fund Administration

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€6,250 HCI funded programme with reduced fees for eligible candidates	BLENDÉD – PART-TIME Monday and Wednesday evenings from 6pm	SEPTEMBER 2024	www.pac.ie

The MBS in Investment Fund Administration had been designed to address general and sector specific skills and knowledge required to advance your career in the investment fund administration sector.

A core principle of the programme is collaboration: an interaction between academia and industry. Companies that are part of the investment fund administration sector have been involved in all aspects of the development of the programme, from high level programme learning outcomes to individual module content. This ensures that the programme and its delivery meets the needs of those currently in the industry. The intention is not to replicate in-house training

programmes but to add to those programmes and provide participants with the intellectual and skills platform required to enhance their career prospects..

Master of Business in Lean Enterprise Excellence

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€7,500	ONLINE – PART-TIME	SEPTEMBER 2024	www.pac.ie

The Master of Business in Lean Enterprise Excellence is an executive/practitioner programme providing participants with the required knowledge, know-how, know-why, and skills to advance as Lean and Continuous Improvement leaders in organisations.

The programme is founded on seminal theories and thinking from scientific management, quality management, world-class manufacturing, change management, the Toyota Production System (TPS), The Toyota Way, and the Shingo Model. Building on that foundation, we synthesise the principles, systems, culture, and behaviours that are integral to contemporary Lean enterprise and operational excellence.

Participants attain in-depth understanding of wider organisational contexts, cross-sectoral applications, and both manufacturing and service orientations.

Master of Business Human Resource Management Stream

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€6,250	2 YEARS – PART-TIME Flexible over two years, taking 2-3 modules per semester	SEPTEMBER 2024	www.pac.ie

The programme provides students with the opportunity to greatly enhance their specialist subject knowledge, experience innovative learning methods, and explore opportunities arising from innovation, change and business development. Students achieve this through participation in class activities and through involvement in events organised by the Chartered Institute of Personnel and Development (CIPD).

Our School has well developed links to the CIPD and the body provides strong recognition of our programmes, with graduates of the MBS being accredited with graduate membership of the CIPD. This approach is unique, both in terms of the breadth of the subject coverage, and the depth of

the subject expertise. A key feature of the MBS programme is that it sets the theories into a wider practical perspective, through the use of case studies, state of the art technology and visiting staff who are experienced and respected practitioners.

The imperative of the 21st century business environment, risk management is a holistic management construct for identifying potential threats, risks, and vulnerabilities in an organisation and its business enterprise. It concerns ongoing, never-ending strategies to evaluate and mitigate potential disruptions, and encompasses resiliency planning, prevention, crisis management, business continuity management, and technology recovery. As such, the ability to contribute to enterprise risk planning and execution is an important skill for many business leaders. Thus, this course is designed for business owners or people that want to upskill towards senior executive Levels within larger organisations. The primary objective of the MSc

in Business Risk Management is to develop professionals who can take on enterprise risk challenges in today's turbulent business world, enhancing business value by providing analytical and technological solutions that mitigate risk across entire business enterprises.

Higher Diploma in Business in Management

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€4,300	1 YEAR – BLENDED	SEPTEMBER 2024	www.pac.ie

This is a one-year programme which is aimed at developing the range of cross-enterprise skills required of modern competitive organisations. It has been designed with business management and leadership skills as a dominant focus. With strong industry links, the programme is typically delivered using a blended learning approach and encompasses lectures (online on a weekly basis and face-to-face for two full days per month), workshops, discussion boards, videos, case studies, online learning and the traditional classroom environment, where participants develop key business management and leadership skills over two semesters.

Students may also pursue the associated "Certificate in Project Management" and "Certificate in Management Development" - each 30 credits at Level 9. See setu.ie/courses

Higher Diploma in Business in International Business

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow Wicklow Wexford	€2,500	1 YEAR – PART-TIME 2 evenings per week 7.00-10.00pm with some Saturdays throughout the year (indicative)	SEPTEMBER 2024	www.pac.ie

This one-year course has been designed for graduates of business and nonbusiness disciplines in order to equip them with the necessary knowledge and competencies required in international business. International business is concerned with contemporary issues in business from both a national and international perspective. Learners will have leading knowledge of contemporary theories, concepts and issues concerning international business in today's society. In addition, the modules blend both theory, practice and policy to ensure that the learner will be able to manage, develop and lead organisations in the sector. The course will also provide learners with critical thinking tools to enable them to succeed in the field of business.

It will provide learners with a critical understanding of concepts and approaches to enable individuals and groups to realise their potential.

Carlow Wicklow Wexford	€390	12 WEEKS – PART-TIME 1 evening per week 7.00 - 10.00pm (indicative)	SEPTEMBER 2024	www.setu.ie/parttime <i>Scan QR code for the full list of modules.</i>

This course was designed to provide learners with an understanding of the role of an owner-manager in enterprise. It provides opportunity for analysis of both internal and external factors that influence the operation of an enterprise and the roles of planning and innovation within that operation. Participants of the course

will gain an understanding of the traits and characteristics of a successful entrepreneur and introduce them to the skills and knowledge necessary to effectively run a business. They will investigate how to deal with complex business issues and will reflect on their own managerial strengths and areas for improvement.

Entry requirements

All applicants will be considered on a case-by-case basis. Lifelong Learning reserves the right to require applicants to attend for an interview to determine their suitability for the course.

Marketing and Social Media is the pulse of the 21st Century. It is how people keep in contact with friends near and far, it is how we share opinions, it is how we purchase and consume goods and services. What is, however, often less visible is just how important social media is to business. In Ireland, social media and the digital sector, along with the business world is moving at an incredibly fast pace and industry is highly evolving. As marketers we must embrace this new social movement in order to engage with the ever changing customer within a business context. This Certificate will provide students with the business, marketing and digital media skills and knowledge needed to enter this industry.

This programme is designed to provide participants with specific knowledge of procurement and quality across many sectors. It will give participants the tools they need to understand the fundamentals of the purchasing role - it is about getting the right product, in the right quantity, at the right quality, in the right place at the right time, for the right customer at the right cost whilst continually focusing on quality and eradicating waste from your processes. It is designed to appeal to those who are looking to re-skill or up-skill within this Sector. The applied nature of this course is reflected in the combination of procurement and quality which focuses on developing the student's knowledge of purchasing strategy, quality management and Lean Six Sigma process.

Master of Science in Computing Information Systems Processes

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€4,950	1 YEAR – FULL-TIME Part-time over a longer period	SEPTEMBER 2024	www.pac.ie

The MSc in Computing in Information Systems Processes combines the human, the organisational, and the technological to provide a broad perspective of modern information systems and their development. The human aspects of the programme explore issues such as human computer interaction, psychology, computer ethics, and systems development in the human-centred tradition. The organisational aspects consider successful business processes and how these can be supported through information infrastructures such as supply chain management systems. Finally, the technological aspects look to trends in information systems development, such as emerging methodologies, software development, and

technological systems. The programme also includes a research project and dissertation, thus allowing students to investigate an individual area of personal interest.

Higher Diploma in Production Management for Digital Animation

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€3,000	2 YEARS – PART-TIME Blended	SEPTEMBER 2024	www.pac.ie

The Higher Diploma addresses the needs of the Digital Media/ Animation sectors for qualified project management graduates in an increasingly convergent marketplace. The course is structured around the established workflow phases of a typical animated feature and was designed following extensive dialog with relevant enterprise partners (e.g. Cartoon Saloon, Brown Bag Films). All modules reflect industry Project Management best practice. Semesters 1 and 2 address the critical production workflow and related project management disciplines. While Semester-3 offers Work Placement and Mentorship in association with Enterprise Partners. The philosophy of the HDip in Animation Production is to blend

the creative (observation, artistic conception and an understanding of the traditional principles of animation) and the technical (Animation and Post Production Tools) with management and strategic planning skills specific to the Digital Animation Industry.

This Certificate is designed to fill a national skills deficit. These types of courses are not taught on the majority of electronics or IT academic courses but the specific skill is an absolute requirement for all Information Communications Technology (ICT) companies in developing network technology and for all organisations

who operate an IT or ICT network. The requirement for this skillset has a particular current requirement as IT and telecommunications technologies converge.

Wicklow				
Wexford				

This course has been designed to facilitate and prepare students and current practitioners or those with an interest in early childhood education for leadership and management roles in the operation of early childhood education services and related public policy. This Masters course will develop students' ability to both analyse, manage and creatively respond to critical issues and changes in early childhood care policy and service implementation, all the time being cognisant of the best interests of the child. This is an ideal postgraduate course for students or current practitioners within the early childhood education sector who are interested in becoming an administrator, director or manager of early childhood education programs.

It is also suitable for those interested in advisory, mentoring and inspection roles within the sector.

Early childhood education and practice involves supporting babies and young children to become competent and confident learners through loving relationships with others. Graduates of this programme will have the knowledge, competencies and skills to work directly with, or on behalf of, babies and young children in a range of early childhood settings, particularly in the ECCE 'free' preschool year funded by the Department of Children and Youth Affairs. Professional employment opportunities can include roles as room leaders, managers and leaders in early childhood settings such as: preschools; crèches; special needs services; family support centres and community services.

Opportunities may include leadership roles in county childhood care committees, specialists with Better Start National Early Years Quality Development or inspectors with the Department of Education and Skills.e.

Waterford	€3,000 40% funding may be available from Skillnet	1 YEAR – PART-TIME Blended mode: 6.00-10.00pm Tuesday and Thursday; 3 weeks on campus & 9 weeks online	SEPTEMBER 2024	www.setu.ie/parttime

This part-time, evening, postgraduate course is designed to facilitate existing graduates from relevant areas who wish to upskill or convert to early childhood care and education to gain the professional qualification required in Ireland's contemporary, professionalised, early years sector. The programme is targeted at applicants who are already working in supervised practice. The overall aim of the Higher Diploma in Arts in Early Childhood Studies, Care and Education is to develop critically reflective, skilled and ethically aware professional Early Childhood Educators. The course will afford graduates from relevant disciplines an opportunity to enhance existing qualifications, and build on existing practical expertise, to obtain a

recognised level 8 qualification in Early Childhood Studies, Care and Education.

Extended Campus	€3,600 per year	3 YEARS – PART-TIME Hybrid approach involving pre-course reading, pre-recorded classes, live and onsite classes.	SEPTEMBER 2024	www.setu.ie/parttime

The aim of this programme is to give students a thorough introduction to the principles of flight dispatching including civil air law, ICAO, EASA and IAA roles, airline operations and air traffic management. The programme will also give students a good understanding of flight planning, aviation navigation and aviation meteorology as well as the principles of human factors and health and safety and safety management systems within the aviation sector. Modules have been chosen and designed based on leading industry advice and consultation and research about student and employer demand. The modules chosen are designed to provide students with the knowledge, skills and competencies required by the sector and includes additional

academic modules linked to the aviation sector. The core aviation syllabi come from the International Civil Aviation Organisation (ICAO) Flight Operations Officers/Flight Dispatchers Training Manual Doc 7192-AN/857 Part D-3 Second Edition 1998 and all ICAO annexes..

Students can exit the programme with a Higher Cert in AFD on successful completion of years 1 & 2 of the Bachelor of Science in Flight Operations.

Waterford	€750	1 YEAR – BLENDED Fri online lectures. On-site lectures and workshops once per month	SEPTEMBER 2024	www.setu.ie/parttime

The new BSc in Additive Manufacturing at SETU is designed for professionals to upskill in advanced AM applications across Med-Tech, Bio-Pharma, Aerospace, Agri-Tech, and Precision Engineering. Developed by the SETU-led AMASE project and funded by the Irish Government's Human Capital Initiative, this degree is created in partnership with leading industry partners.

Along with the BSc in Additive Manufacturing (60 credits at level 7) the AMASE team have also developed an integrated suite of shorter 10-credit awards:

- Certificate in Introduction to Additive Manufacturing – 10 credits
- Certificate in Design for Additive Manufacturing – 10 credits

- Certificate in Additive Manufacturing Health & Safety and Regulatory Affairs
- Certificate in Additive Manufacturing Lab Technologies & Post Processing.

Monthly on-site lectures and workshops are held in SETU Waterford Cork Road, SETU Carlow, the 3DSETU Waterford Printing and Training Centre, and SEAM Waterford.

SETU Music School

SETU Music School has been at the heart of music education in Waterford and the South East for over thirty years. With tuition available in both individual and group classes, combined with award winning choral and orchestral ensembles, SETU Music School offers a comprehensive, enjoyable music education to suit all ages.

LOCATION	SCHEDULE	APPLY ONLINE
Waterford	FLEXIBLE – PART-TIME	www.setu.ie/musicschool music.school.WD@setu.ie

Instrumental and Vocal Tuition

Instrumental and vocal lessons are fundamental at SETU Music School. We cater for all types of learner, from complete beginners and adults, to those aspiring to a career in music. Our qualified and experienced lecturers ensure that students enjoy their learning experience, whilst receiving expert tuition with the option of studying to Diploma level if they wish. Tuition is available individually and in a group and is supported by our graded Musicianship classes. Instruments available include piano, flute, clarinet, saxophone, trumpet, trombone, violin, viola, double bass, guitar and voice. Students can study classical, jazz or popular styles.

Choral Programme

The SETU Choral Programme is one of the most dynamic and progressive of its kind in Ireland. Since its foundation, it has nurtured thousands of the most talented young singers in the region. In a fun and engaging way, members are encouraged to develop their musical, creative and performance skills. The Choral Programme aims to help children achieve high musical and artistic standards through choral singing. There are six choirs catering for children in Senior Infants all the way to Sixth Year: Singing Club, Children's Choir, Boys' Choir, Girls' Choir, Junior Youth Choir & Youth Choir. Many of our choirs perform and compete around Ireland and Europe, singing in the venues stretching from Dublin and Cork to Lisbon, Prague and New York.

Musicianship

These classes are an integral part of the SETU Music School curriculum and provide an essential foundation on which to build musical progress and success. Our Musicianship course runs across seven grades and covers a wide range of skills including: reading and writing music, sight-singing, improvisation, aural skills and keyboard skills. The classes are facilitated by experienced lecturers and take a practical approach, enabling students to 'think in sound'. Musicianship classes compliment students' progress in instrumental or vocal tuition, their participation in SETU ensembles and choirs, as well as in Junior Cycle and Leaving Certificate Music.

Kids Club

Kids Club is a fun and exciting way for children to explore and learn about music. Each child will have the opportunity to experience and discover music in a safe and relaxed environment. They will play, sing, dance and learn alongside qualified music practitioners, building an awareness of musical elements such as beat, rhythm, tempo and dynamics. It is open to children in Junior and Senior Infants and is an excellent introduction to music for any budding musician.

Orchestras & Ensembles

Across SETU Music School, there are a variety of orchestras and ensembles for all ages and abilities. These include SETU Budding Bows and SETU Concert Strings for string players, and SETU Wind Ensemble for wind players. Our most senior orchestra, the SETU Orchestra, includes young members studying in and outside of the Music School, as well as adults and third level students from around the South East. It regularly performs a variety of classical masterpieces as well as some popular and film music. Our award winning ensembles have traveled far and wide and many members are part of the National Youth Orchestra of Ireland. They have participated in masterclasses with professional musicians and premiered many works by Irish composers.

Entry requirements

- Kids Club:** Junior & Senior Infants
- SETU Budding Bows & Wind Ensemble:** Grade 1 standard required
- SETU Orchestra & Concert Strings:** Grade 5 standard required
- SETU Singing Club:** Senior Infants & 1st class
- SETU Children's Choir:** 2nd & 3rd class
- SETU Boys' & Girls' Choir:** 4th-6th class
- SETU Junior Youth Choir:** 1st-3rd year
- SETU Youth Choir:** 4th-6th year

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow	€2,500	1 YEAR – PART-TIME 3 evenings per week 7.00 - 10.00pm with some Saturdays throughout the year (indicative)	SEPTEMBER 2024	www.pac.ie Scan QR code for the full list of modules.

This course is co-delivered with Carlow College. The Higher Diploma in Journalism and New Media Content is designed to attract, train and educate a cohort of individuals who wish to have careers as writers in the cognate fields of journalism, media and communications; anywhere where precision and facts are vital to the success and empowerment of employers, audiences and democracy. The course is also aimed at those already working in media and journalism who might want to engage with deeper views and new methods to improve and expand their practice. Each module is designed to provide a comprehensive education and training in the skills, competencies and knowledge needed to become a journalist and/or media

content creator. Students will learn to construct stories factually, engagingly, and appropriately for different media platforms and audiences.

Students will go beyond the mere training needed to write accurately in the journalistic mode and further their practice by engaging with advanced academic work to unveil deeper knowledge about the theory and practice of journalism and media writing.

Waterford	€10,800	2 YEARS – PART-TIME 1 contact day per week: online approx. 9 days per semester; onsite approx. 3 days per semester	SEPTEMBER 2024	www.pac.ie

The MSc in Professional Nursing is a National programme that is fully approved by the Nursing and Midwifery Board of Ireland (NMBI).

Its aim is to provide an accessible, innovative, flexible and practice-orientated sustainable educational experience that will attract and retain nurses who will work within an integrated health service. It is delivered via a blend of online and face-to-face delivery to allow greater flexibility to learners.

The programme provides the nurse with a broad based educational experience to practice at an advanced level. HSE staff may be eligible to apply for funding to their local NMPDU.

The course is underpinned by an enquiry and practice based curriculum model that addresses the individual needs of the student while supporting practice development in service.

Master of Science in **Cognitive Behaviour Therapy and Motivational Interviewing for Practice**

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€8,500	BLENDED – PART-TIME Classroom one day per fortnight over first 2 semesters with a 3 day block at the beginning of each semester	SEPTEMBER 2024	www.pac.ie

The Masters of Science in Cognitive Behaviour Therapy (CBT) and Motivational Interviewing (MI) for Practice programme is an 18 month programme that arises from a requirement for health and social care professionals to provide effective evidenced based interventions for a range of health and social problems. The programme is of particular interest to those working in health related fields including mental health nursing, social care, addiction services and voluntary organisations. CBT is widely utilised for a range of psychological difficulties, namely anxiety and depression.

Cognitive and behavioural treatments are also among the most extensively evaluated of psychosocial interventions for alcohol and drug misuse. The MSc in Cognitive Behaviour Therapy (CBT) and Motivational Interviewing (MI) for Practice has a strong focus on developing and enhancing the practitioners' skills, whilst also setting the interventions within a wider service need perspective.

Master of Science in **Mental Health Practice for Children and Young People**

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Waterford	€950 - module €5,500 - PGDip €8,500 - MSc	FLEXIBLE – PART-TIME 18 hours online and 16 hours of in-person teaching per module	SEPTEMBER 2024	www.pac.ie

The Mental Health Practice with Children and Young People program is designed to be as flexible as possible and to meet the needs of any professionals working with or hoping to work with young people. The course is aimed at nurses, social care workers, speech and language therapists and other allied professionals.

There are six 10-credit modules that can be taken individually as Professional Certificates, or together along with a 10 Credit research module, to make up a 60-credit PG Diploma, or with an additional 30-credit Dissertation module which makes up a 90-credit MSC. Candidates can do as little or as much as they need for their own professional roles. The course requires candidates

to have a level 8 qualification, there is no stipulation that it needs to be in the area of social sciences or education.

It is a multi-disciplinary program delivered in a blended capacity with 18 hours online and 16 hours of in-person teaching per module.

There is no licence to practice involved in any of the awards, but each will enhance the student's knowledge of the specific areas of children's and young people's mental health.

Certificate in Facilitation Mentoring & Development (GAA)

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Extended Campus	Please contact the Extended Campus office	Classes are delivered using a hybrid approach involving a combination of pre-course reading, pre-recorded classes, live and onsite classes.	SEPTEMBER 2024	www.setu.ie/parttime <i>Scan QR code for the full list of modules.</i>

This course aims to support Associates, Facilitators and Development Officers who facilitate on the Club Leadership Development Programme (CLDP) provided by/to the GAA, LGFA and Camogie Association. It aims to do so by enhancing the knowledge and skills required to fulfil their roles. The Officer Development Committee for Gaelic Games in

conjunction with SETU has designed this course to provide a formal Level 7 qualification for participants and provide a pathway for Associates to progress in their professional development. The course will provide participants with opportunities to develop and reflect upon their practice and to be part of a structured community of practice.

Entry requirements

Applicants for this programme will be nominated by their organisation.

Entry requirements

Applicants will come through the GAA.
All students on this programme will be required to have a Level 6 qualification.
Applicants without a Level 6 can apply using the Recognition of Prior Learning route and will be considered on a case-by-case basis.

Certificate in Community Sports Coaching

LOCATION	FEES	SCHEDULE	START DATE	APPLY ONLINE
Carlow	€720	24 WEEKS – PART-TIME 1 evening per week 7.00 - 10.00pm (indicative)	SEPTEMBER 2024	www.setu.ie/parttime <i>Scan QR code for the full list of modules.</i>

This programme has been designed to assist job seekers who wish to become qualified coaches, referees, or leaders in the sports' community. Learners will examine the provision of coaching in relation to disability, in schools, and youth organisations. The course can strengthen learners' potential for career development as they become

equipped to provide coaching in sports where there is a shortage of full-time development officers. They will learn also about the promotion of positive mental health through participation in sport.

Entry requirements

All applicants will be considered on a case-by-case basis. Lifelong Learning reserves the right to require applicants to attend for an interview to determine their suitability for the course.

An Cosán

SETU accredited courses

An Cosán: Empowerment Through Education

An Cosán's mission is to use the power of transformative education through learning, leadership, and enterprise to end the injustice of poverty.

An Cosán holds as its utmost value that access to education is a human right. We provide a pathway to learning, leadership and enterprise for those who are most marginalised in our society. Our focus is primarily on women and children, although we welcome others, as we believe this is the most effective way to end intergenerational poverty.

We are a feminist organisation that holds empowerment and equality at our core. We strongly believe in inclusivity, diversity, and respect. The communities we work in are important to us and we are constantly striving to find new ways to break down barriers for people to access education in these communities to achieve their full potential.

We offer a variety of courses in early years education and care, parenting, community, further, and higher education. In our online education courses, we bring our ethos beyond Jobstown to locations across the country through our network of more than 200 community partners.

Higher Education courses

The South East Technological University is the Designated Awarding Body for An Cosán. The following Linked Provision courses are developed in the context of adult community education and transformative lifelong learning. They are intended for part-time, mature students. Minimum entry requirements apply.

- BA Degree in Applied Addiction Studies and Community Development (Level 7, 180 ECTS)
- BA Degree in Leadership and Community Development (Level 7, 180 ECTS)
- Certificate in Personal and Professional Development (Level 6, Special Purpose Award, 60 ECTS)

- Certificate in Leadership and Social Enterprise (Level 6, Special Purpose Award, 60 ECTS)

An Cosán also offers accredited, third level courses of short duration throughout the academic year. Accredited minor awards serve as appropriate entry routes for adult learners seeking to return to third level education or seeking professional development opportunities.

- Technology Enhanced Learning (Level 7, Special Purpose Award, 10 ECTS)
- Transformative Community Education (Level 7, Minor Award, 10 ECTS)
- Introduction to Citizenship and Social Action (Level 6, Minor Award, 10 ECTS)
- Introduction to Community Leadership (Level 6, Minor Award, 10 ECTS)
- The Nature and Context of Addiction (Level 6, Minor Award, 10 ECTS)

- Drug Prevention, Education and Awareness (Level 6, Minor Award, 10 ECTS)

The complete list of available minor awards may be accessed at <https://www.ancosan.ie/higher-education/>. Available minor awards are updated regularly throughout the academic year.

SETU delivers the following award at An Cosán's premises in Jobstown:

- BA Degree (Honours) in Early Childhood Education and Care (Level 8, 240 ECTS)

An Cosán welcomes enquiries from individual learners as well as from community-based organisations seeking collaborative partnerships. Email course enquiries to courses@ancosan.ie

Dublin Art Therapy College

SETU accredited courses

In 2011 Dublin Art Therapy Studio (DATS) commenced offering a Professional Certificate in Art Psychotherapy to Counsellors and Psychotherapists. The need for a separate and distinct school of art therapy in Ireland emerged because of accumulative international evidence of the therapeutic value of art as a distinct therapy (Chapman, L. et al. 2001, Drake, L. et al. 2012, Monti, D. et al. 2004, Seligman, Z. 1995, Thyme, K. et al. 2007). The focus of the course was to enable therapists to integrate art therapy into their clinical practice. With growing interest in Art Therapy, it soon became apparent that there was a need for a comprehensive core-training programme to be established.

The philosophy of the Dublin Art Therapy College (DATC) embraces the Person-Centred Approach and integrates the core philosophical principles with Art

Psychotherapy and Neuroscience. (Hass-Cohen, N. & Carr, R. 2008, Malchiodi, C. 2013, Rogers, N. 1993, Rubin, J. 2016). Immersed in the humanistic beliefs and traditions of developmental self-actualisation, there is a strong commitment to promoting a student-centred learning environment. This environment is fully supportive of students as they enter the rigours of personal, professional, and academic development. A holistic approach to education underpins the pedagogical style and DATC aim to help learners to achieve their full potential. The focus is on identifying and respectfully supporting the needs of the students, whilst at the same time being mindful of diversity. Underpinning this philosophy is our adherence to upholding the professional and ethical framework outlined through the recognised regulatory agencies, such as IACP, with integrity.

Awards & Exit Awards

- Master of Science in Creative Art Psychotherapy: Working with Young People
- Bachelor of Arts (Hons) in Integrative Counselling and Art Therapy
 - Level 6 Minor, Certificate after Stage 1;
 - Level 6 Major, Intermediate Certificate after Stage 2;

Gestalt Institute of Ireland SETU accredited courses

The Gestalt Institute of Ireland has been training therapists since 1983. It has an established record for producing therapists who are not simply qualified but recognised for the high standard of their professional work in the field.

Courses are accredited by both IAHIP and IACP and provide an exciting journey into self-awareness alongside a rigorous professional training. Skills, theory and personal development are given equal weight. An integrated approach to their delivery is facilitated by the experiential structure of the course which affords

many opportunities to link theory and practice and foster the development of a reflexive practitioner. Graduates are equipped to work effectively in a variety of professional settings and past students currently take a leading role in the field of psychotherapy in Ireland.

The course is delivered at Teach Bhríde, Tullow Co. Carlow in residential teaching blocks. Modules 1-3 comprise the Postgraduate Diploma (Level 9) with Module 4 being the dissertation module which leads to the award of Masters of Arts in Gestalt Psychotherapy.

Courses awarded by SETU

The National Framework of Qualifications includes all education and training awards (schools, Institutes of Technologies, Universities) offered in Ireland and relates them to each other. This section briefly explains the award types and gives an overview of the main features of these awards.

Definitions

Course: The course.

Award: The qualification at the end of the course.

Module: The individual subject studied.

Each course is made up of modules. A module has a specific content, assessment tasks and credit value. The credit value of a module is linked to the volume of learning covered and the academic demands placed on the student. A credit is a way of measuring the amount of learning undertaken by a student. This will normally include time you devote to your studies, teaching time through lectures, work for assignments and private time. Credits are gained when you have successfully completed the assessments and/or exams for that module.

SETU uses the European Credit Transfer System (ECTS), in which 1 ECTS credit corresponds to approximately 20 to 25 hours of learning time. One advantage of ECTS is that it is internationally recognised by European and international universities. Some modules of our courses are offered on a stand alone basis e.g. Employment Law from our Lifelong Learning degree course. This means you study the module at the same level as those doing the full course and you receive the same credits but you only cover that one module. This will provide you with a chance to “dip your toe” into the course and should you decide to pursue the full course later any accumulated credits will go towards the Award.

NOTE: All programmes are offered subject to sufficient numbers of students.

This document is intended as a guide to programmes. While every effort has been made to ensure the completeness and accuracy of the information contained in this publication at the time of print, South East Technological University reserves the right to make changes to any content, schedules or fees.

Our awards may be classified under three headings:

- **Major Awards** - are the principal class of awards, e.g. Honours Bachelor Degree at Level 8 such as the Bachelor of Arts (Honours) in Law.
- **Minor Awards** - are linked to a Major Award and they provide recognition for learners who achieve a range of outcomes, but not the specific combination of learning outcomes required for a Major Award, e.g. Diploma in Law.
- **Special Purpose Awards** - are made for specific, relatively narrow, purposes — for example the Certificate in Electrical Principles.

We offer several different types of Awards

A Certificate: is awarded for courses at Level 6, with 60 credits or less and can be achieved in one-year e.g. Certificate in Administrative Law.

A Diploma: is awarded for courses with more than 60 credits but less than 120 credits and would require two or more years, e.g. Diploma in Law. This example is a Minor Award linked to our Honours Degree in Law.

A Higher Certificate: is awarded for courses at Level 6 with 120 credits and would require two-years study, e.g. Higher Certificate in Business. This is a Major Award.

An Ordinary Bachelors Degree: is awarded for courses at Level 7 with 180 credits and would require, on average, three years study, e.g. Bachelor of Arts in Applied Social Studies. This is a Major Award.

An Honours Bachelors Degree: is awarded for courses at Level 8 with a minimum of 180 credits and would require on average four years part-time study, e.g. Bachelor of Business (Honours) in Management. This is a Major Award.

Masters Degree: is awarded for courses at Level 9 with a minimum of 90 credits and would require a minimum of 2 years part-time study, e.g. Master in Business Administration / Master in Business.

Postgraduate Diploma: is awarded for courses at Level 9 with 60 credits where a student registered and completed this award.

National Framework of Qualifications Comparison Table

Old awards up to 2004	NFQ Level	New awards	NFQ Level
		Masters/Postgraduate Diploma	9
Honours Bachelor Degree	8	Honours Bachelor Degree/Higher Diploma	8
National Diploma	7	Bachelors Degree	7
National Certificate	6	Higher Certificate	6

PLEASE NOTE: All fee information can be located on www.setu.ie. It is the responsibility of the applicant to be aware of the fee information for the relevant courses.

National Framework of Qualifications

CLASSES OF AWARD

- Major Awards: named in the outer rings, are the principal class of awards made at a level
 - Minor Awards: are for partial completion of the outcomes for a Major Award
 - Supplemental Awards: are for learning that is additional to a Major Award
 - Special Purpose Awards: are for relatively narrow or purpose-specific achievement
 - Professional Awards: are for occupation-orientated qualifications including apprenticeships
- *Please refer to NCCA website, ncca.ie/en/junior-cycle/
